

OFFICE OF THE UNDER SECRETARY OF DEFENSE
3000 DEFENSE PENTAGON
WASHINGTON, DC 20301-3000

APR 22 2020

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Integrated Program Management Data and Analysis Report (IPMDAR) Data Item Description (DID)

The Integrated Program Management Data and Analysis Report (IPMDAR) is one of the Department's most powerful new program management tools as it integrates cost, schedule, and technical performance of a program. The IPMDAR provides maximum reporting flexibility as well as execution transparency by directly aligning to the process in the EIA 748 Standard.

The IPMDAR DID (DI-MGMT-81861B) is a significant change in Earned Value reporting for programs. It takes a major step in the evolution of acquisition reporting. While the previous IPMR DID gained efficiencies by combined reporting, the IPMDAR DID extends those efficiencies by:

- Moving to a more efficient data standard
- Eliminating the human readable formats
- Providing flexibility through incremental delivery of data
- Delivering tighter integration between cost and schedule
- Providing flexibility in variance reporting
- Reporting and variance analysis at the Control Account
- Focusing on future forecast data

The IPMDAR DID is available immediately for all applicable solicitations or requests for proposal (RFP). The attached IPMDAR DID supersedes the June 2012 IPMR DID, July 2005 CPR DID, and the July 2005 IMS DID. It is developed in accordance with the MIL-STD-963 Department of Defense Standard Practice DID to ensure uniform procedures for the preparation of cost and schedule reports throughout the Department.

My point of contact is Mr. John McGregor at 703-697-3759.

David S. Cadman
Acting Principal Deputy Assistant Secretary
of Defense, Acquisition Enablers
