There is one test policy for Online Training Courses (Continuous Learning and Distance Learning).

1. Students have 3 attempts to pass a test.

3. If you do not score 80% on the 1st attempt, all subsequent attempts will contain the full number of questions that were presented during the 1st attempt.
4. If you do not score 80% on the 3rd test attempt ALL your progress in the course will automatically be reset. This means any lessons and tests that you previously completed will now reflect they have not been accessed. You will have to start the course over from the beginning. There is not a limit to the number of times your entire course progress can be reset if you do not achieve a score of 80% by your 3rd test attempt.
5. After submitting a test, the results page will display your score and advise you of the questions that were answered correctly and incorrectly. The answers you selected will not be displayed.
