

Focus Areas

Thinking

Collaborating

Cultivating

Leveraging academic research, industry practice, and acquisition workforce insights, these three focus areas of innovation practices guide the innovative mindset.

Learning Methods

Your learning journey to acquire an innovative mindset is lifelong. To ensure improvement and mastery, you must spend time each week watching experts, listening to talks, reading articles and books, or engaging in discussions and workshops. This is necessary to keep abreast of new technologies and to evolve your innovation skills.
