

2005–2022 DMSMS Achievement Awardees

The DMSMS achievement awards recognize individuals and teams from the government who are most responsible for significant achievements in proactive DMSMS management and implementation. The awards are based on achievements in the following areas:

- Exceptional DMSMS management
- Significantly improved and quantifiable readiness levels
- Substantial cost avoidance
- Exceptional warfighter support related to or realized through mitigation of a DMSMS issue
- Creation or implementation of a DMSMS best practice that increases supportability and availability of systems to the warfighter.
